ABB ABB Series Service Manual

SS822

1. Description

3BSC610042R1

3. Product Information

3BSC610042R1| ABB| SS822 Power Voting Unit

Manufacturer: ABB

Product ID:3BSC610042R1

ABB Type Designation:SS822

Catalog Description:SS822 SS822 Power Voting Unit

Long Description:With dual 24V d.c 20A inputs, single 24V d.c. 20A output. Each power input supervised. Used if redundant power supply is required. For use with power supply SD821/822/823. Width=50 mm. DIN rail mounted.

Product Type:Voting

Input Voltage (Uin):24 V

Input Voltage Type:DC

Input Current Maximum (Iin):10 A

Number of Outputs:1

Output Voltage (Uout):24 V

Output Current Maximum (Iout):20 A

Mounting Type:DIN rail

Technical Information:SS822 Power Voting Unit

With dual 24V d.c 20A inputs, single 24V d.c. 20A output.

Each power input supervised. Used if redundant power

supply is required. For use with power supply SD821/822/823.

Width=50 mm. DIN rail mounted.

Exchange No. 7650 055-772

Product Net Weight:0.5 kg

Gross Volume:1.01 dm^3
