IC693CPU311Z

GE Fanuc / GE Intelligent Platforms (now Emerson) · Series 90-30

Entry-level embedded CPU with Intel 80188 processor for the Series 90-30 platform (revision Z).

Hardware

Processor: Intel 80188
Clock Speed: 10 MHz
Register Memory: 1 KB
Discrete I/O Capacity: 160 points
Analog I/O Capacity: 64 inputs, 32 outputs

Communication

Serial Ports: 1

Electrical

Backplane Current Consumption: 410 mA

Physical

Mounting: Embedded on baseplate

Lifecycle

Status: Discontinued (End of Sale) (Last verified: 2026-09)
