IC693PWR330H

GE Fanuc / GE Intelligent Platforms (now Emerson) · Series 90-30

High-capacity AC/DC input power supply for the Series 90-30 system (revision H).

Power Supply

Nominal Input Voltage: 120/240 VAC or 125 VDC
Input Voltage Range (AC): 85 to 264 VAC
Input Voltage Range (DC): 100 to 300 VDC
Input Power: 90 VA (AC) or 50 W (DC)
Output 5 VDC: 30 W maximum (5.0 to 5.2 VDC)
Output 24 VDC Relay: 15 W maximum (24 to 28 VDC)
Output Isolated 24 VDC: 20 W maximum (21.5 to 28 VDC)
Hold-up Time: 20 ms minimum

Electrical

Inrush Current: 4 A peak, 250 ms maximum

Environmental

Operating temperature: 0 to +60°C ambient

Physical

Mounting Location: Leftmost slot of baseplate
Weight: ~0.68 kg (supplier-reported)

Lifecycle

Status: Discontinued (End of Sale) (Last verified: 2026-09)
