

STBACO1225

Schneider Electric · Advantys STB

Basic 2-channel analog current output module (0-20 mA)

Module type

Basic analog output module

Channels

2

Signal type

0-20 mA current

Range

0-20 mA

Resolution

12 bits

Load impedance

0-500 Ω

Isolation

1500V DC field-to-bus

Hot swapping

Yes

Supply voltage

24V DC (via PDM)

I/O base

STBXBA1000 (13.9 mm)

PDM

STBPDT3100 (24V DC)

Operating temperature

Not available

Storage temperature

Not available

Protection rating

IP20

Lifecycle

Discontinued (superseded by Modicon X80 range) (Last verified: 2026-09)
