Description

Schneider Electric's 170XTS10000 serves as a front label within the Modicon Momentum series, addressing specific labeling needs. It features three dimensions: a height of 0.29 inches, a width of 4.92 inches, and a length of 6.77 inches. This product has a relatively light weight of 83 grams and complies with CE standards, ensuring it meets required safety and performance criteria. Natural cooling technology allows it to maintain stability during operation. The device can withstand a minimum ambient temperature of 0 degrees Celsius and a maximum of 60 degrees Celsius. These labels are also designed to function in environments with humidity levels up to 95%, both during operation and while in storage, as long

as the humidity is non-condensing. Regarding installation and use, the 170XTS10000 can be utilized effectively at altitudes reaching 1000 meters above sea level. This makes them suitable for a diverse range of applications in various industrial settings.
