

Schneider Series Service Manual

372SPU47201V25

1. Description

The Schneider Electric 372SPU47201V25 belongs to the Modicon Momentum series, serving as a comprehensive software package for various applications. It supports concept programming and multiple languages, including English, German, French, and Spanish, making it versatile for diverse user needs.

2. Specifications

Specification	Value
Manufacturer	Schneider Electric
Product	Line Modicon Momentum
Part	Number 372SPU47201V25
Product	Software Package
Concept	Programming Supported
Languages	Supported English, German, French, Spanish
Spare	Part/Accessory Supported
Operating	Temperature 0 to 40 degrees Celsius
Storage	Temperature 0 to 50 degrees Celsius
Maximum	Operating Humidity 80% RH (non-condensing)
Maximum	Storage Humidity 80% RH (non-condensing)
Maximum	Operating Altitude 1000 meters above sea level without derating
Maximum	Storage Altitude 1000 meters above sea level
Environment	Clean indoor environment with no corrosive chemicals

3. Product Information

The Schneider Electric 372SPU47201V25 belongs to the Modicon Momentum series, serving as a comprehensive software package for various applications. It supports concept programming and multiple languages, including English, German, French, and Spanish, making it versatile for diverse user needs.

Product Line Modicon Momentum

Part Number 372SPU47201V25

Product Software Package

Concept Programming Supported

Languages Supported English, German, French, Spanish

Spare Part/Accessory Supported

Operating Temperature 0 to 40 degrees Celsius

Storage Temperature 0 to 50 degrees Celsius

Maximum Operating Humidity 80% RH (non-condensing)

Maximum Storage Humidity 80% RH (non-condensing)

Maximum Operating Altitude 1000 meters above sea level without derating

Maximum Storage Altitude 1000 meters above sea level

Environment Clean indoor environment with no corrosive chemicals

Description

The 372SPU47201V25 product from Schneider Electric is a software package specifically designed for the Modicon Momentum series. This software facilitates concept programming, making it highly suitable for developers and users managing automation solutions. Additionally, the product supports multiple languages, including English, German, French, and Spanish, thus catering to a broader audience.

In terms of environmental conditions, this software operates seamlessly within a temperature range of 0 to 40 degrees Celsius, ensuring reliable performance during typical operating situations. Storage temperatures can reach up to 50 degrees Celsius without affecting the integrity of the software. Furthermore, it is designed to be used in indoor settings with a maximum operating humidity of 80% RH, ensuring that it remains functional even in less than ideal conditions. The software can also be stored safely under similar humidity levels, reinforcing its overall versatility.

Altitudes of up to 1000 meters can be sustained during both operation and storage without any derating in performance, making it suitable for various locations. The intended environment for this product is clean, avoiding exposure to corrosive chemicals which can jeopardize functionality. Additionally, it serves as a spare part or accessory, providing a flexible option for existing setups.
